

The Bats

Wild Women
and Song!

Book Us!

The Bats are available for concerts, special events, private parties... and retail therapy.

"The shtick, the sensibility, the song choice and the musicianship -- it's a batty, magical combination."

"You are a very talented and funny bunch. KT and I literally laughed until we cried."

"You are just too cute and so creative!!!"

"I made my reservations in the cheap seats for me and my wife. She'll love the show better than she loves me - which is understandable. Maybe she can give a "hot flash" testimonial for you. We live with them here at the house - they're smokin'."

--comments from rabid batfans

The Bats have netted a genre that can best be described as cabaret meets rock and roll... and everything in between.

The five feisty women and three very brave men of this distinctive group embrace many musical styles with the material ranging from comical to poignant. They sing of love lost and found, the joys and stings of growing older, and of life's best and worst moments. Whether covering other artists' songs or singing their own original tunes, the common denominator is tight vocal harmonies, skillful musicianship, wit and sophistication, energy and creativity...with props and choreography thrown in for good measure. They sing, they dance, they yodel... and they're real good lookin'.

The Bats are unique, smart, fun, lively, refreshing, and most of all entertaining.
